EAM MAST's 1st Webinar on

Careless Responding

Connect methods. Share applications. Build synergies.

Join researchers across disciplines for an interactive webinar on Careless Responding. Explore current methodological approaches, discuss challenges from applied research, and connect with researchers working at the intersection of methods and applications.

What to expect:

1. Learn from the field

Keynote by Prof. Ana Hernández (Universitat de València)

Gain insights into current methodological perspectives and approaches to identifying and addressing careless responding.

2. Discuss real research challenges

Interactive small group discussions with methodological experts

3. Connect beyond your discipline

Networking & research exchange – explore new perspectives and ideas

13.10.2026 | 12:30–14:00
